

4th Annual S E A T T L E — S W E D E N
DIABETES AWARENESS DAY
at Seattle Children's Hospital, Seattle, WA

SATURDAY, SEPTEMBER 26, 2009

Meet experts from Sweden & Seattle for a unique opportunity for education & dialogue

The fourth annual Seattle-Sweden Diabetes Awareness Day will feature presentations by prominent Seattle and Swedish researchers on recent findings and breakthroughs regarding the treatment and potential cure of Type I diabetes. The goal of the symposium is to increase awareness about childhood diabetes and provide an opportunity for the public to express concerns, while learning from and interacting with leading experts in the field. Parents of children with Type I diabetes and others are encouraged to ask questions regarding new lines of research and treatment options for their loved ones living with the disease.

Clinical Trials:

The Roadmap to Positive Outcomes

9:30 am

Welcome and introduction

MODERATOR: PAT CASHMAN, Emmy Award winning television and radio personality

9:35

What's new about the Type 1 diabetes epidemic?

SEARCH—GATE PIHOKER, M.D., University of Washington, Seattle
BDD—Annelie Carlsson, M.D., Ph.D., Lund University, Lund, Sweden

10:00

TEDDY—why is the risk so much higher in Sweden—or is it?

WILLIAM HAGOPIAN, M.D., PH.D., Pacific NW Diabetes Research Institute, Seattle
ÅKE LERNMARK, PH.D., University Hospital MAS, Malmö, Sweden

10:30

Vaccination with Diamyd—does it prevent diabetes?

JERRY P. PALMER, M.D. University of Washington, Seattle
ROSAURA CASAS, PH.D., Linköping University, Linköping, Sweden

11:00

Intervention at clinical diagnosis The Trans-NIH intervention programs

GERALD T. NEPOM, M.D., PH.D., Benaroya Research Institute, Seattle
CARLA GREENBAUM, M.D., Benaroya Research Institute, Seattle

11:45

Lunch and Exhibits

1:00

Applied Clinical Research: The “Bell Curve” and the JDRF “Clinical Trials Connection”

RICHARD A. INSEL, M.D. Juvenile Diabetes Research Foundation, New York

1:30 pm

From Research to Practice with Continuous Glucose Monitoring

IRL HIRSCH, M.D. University of Washington, Seattle
RICHARD MAUSETH, M.D. Woodinville Pediatrics, Woodinville

2:15

Presenting the Transition Clinic for Teenagers

LISA K. GILLIAM, M.D., PH.D.

2:30

Human Stem Cells coaxed to make insulin!

HENRIK SEMB, PH.D., Lund University, Lund, Sweden
VINCENZO CIRULLI, M.D., PH.D. University of Washington, Seattle
LAURA CRISA, M.D., PH.D. University of Washington, Seattle
